

AFFAIRS IN GEORGETOWN

Arrival of Ninety-six Bodies of Deceased Soldiers for Interment.

Their Removal to Arlington Cemetery.

Where Services Will Be Held

Tomorrow-Recent Deaths.

Ninety-six bodies of soldiers who lost their lives in Cuba during the Spanish-American war, and subsequently, arrived this morning at the freight depot of the Pennsylvania railroad at Rosslyn. The remains were in three cars of the Adams Express Company and were placed upon a siding. The work of unloading was commenced as soon thereafter as possible.

Sixty-six of the boxes were shipped to Rosslyn from Newport News last evening, the train arriving at its destination at 3:55 o'clock this morning. There were two big, sage cars, and in each car were piled thirty-three of the boxes. The remaining thirty-three were shipped from New York, having been brought to that port on a transport. This car reached Rosslyn at 8:45 o'clock this morning, after the work of removing the boxes from the other cars had been commenced.

Each box was of oblong shape, made of about one and one-quarter inch tongued and grooved pine. Inside of this box was a metallic casket containing the body, the wooden covering being filled with charcoal and lined with soft cotton. The box was accidentally burst open in the transportation, disclosing the packing of sawdust.

There were about twenty-five wagons used in hauling the bodies from the freight yard to the cemetery, a distance of about three miles. As soon as the bodies were loaded, an American flag was placed over each box and the trip to the cemetery began. Each box weighed between 500 and 550 pounds.

In the entire lot of ninety-six there were comparatively few unknown dead. On the outside of each box was painted the name of the soldier and the company and regiment to which he was attached when in the service. The present consignment is the first that has been received so far from Cuba, and it is understood that other shipments are now on the way.

The interments will be made tomorrow morning at 11 o'clock, in what is known as the Spanish-American war section of the cemetery. While awaiting interment the remains of the dead are placed in the care of the National Guard, a guard from the garrison at Fort Myer will be maintained around the place.

Death of Peter McGirr.

Peter McGirr, a former resident of Georgetown, who for some years resided at 2011 Dumbarton avenue, died suddenly yesterday at his home, 1709 New York avenue. Death was due to heart disease, and was very unexpected. Mr. McGirr was a native of Pennsylvania, having been born in Philadelphia sixty years ago. Before the war he learned the trade of plate printer, but at the commencement of hostilities volunteered his services in defense of his country. He served gallantly through the war, and at the close was appointed a plate printer at the bureau of engraving and printing, becoming a member of the American Society of the divisions of the bureau. He was president of the canteen Printers' Mutual Protective Association, and was a member of the organization until his death, nearly eight years.

The deceased was a member of the Grand Army of the Republic and several other organizations. He survived his wife by a few years and several sons and daughters survive him.

Truck House to Be Built.

The work of erecting the new truck house for Georgetown will shortly be commenced. A permit has been issued to John Hughes, Jr., for the erection of a tool house on the site of the truck property, not to be located within thirty feet of the nearest dwelling, and to be removed in 120 days, or when the engine house is under construction, so as not to interfere with the grading of the ground.

Mrs. Sarah Williams, the wife of Mr. Mortimer Williams, for many years an employee of the Georgetown post office, died yesterday morning at the residence of her son-in-law, Arthur W. Parker, son of No. 5 Cooke place. The deceased was born in Stonington, Conn., seventy-six years ago. Besides her husband, there are two married daughters who survive. The funeral services will be held at the residence of her son-in-law, at No. 5 Cooke place and the interment will be private.

THE CITY'S BOUNDARY.

Conference on the Subject at District Building Today.

Messrs. Jesse H. Wilson, Thomas Blagden and A. Lisner, a subcommittee of the board of district commissioners on streets and avenues, today held a conference with the District Commissioners upon the proposition to eliminate the boundary line of the northern boundary line of the city. Mr. W. W. Porter, chairman of the Eckington Citizens' Association committee on city limits, was also present. The statement was made by the Commissioners, however, that the proposition made by Commissioner Wright has been informally discussed by the members of the board of district commissioners, but not at any regular meeting.

Mr. Wilson explained that his committee did not appear for the purpose of making any suggestions, but merely to learn what, if anything, has been done by the Commissioners in the matter, or what they proposed doing. Commissioner Blagden and Messrs. Porter and Lisner pointed out that the proposition is one which should receive very careful consideration, in view of the numerous changes in the boundaries of the city, and the fact that the law as it stands would involve in the building and police regulations, in the grading of the city, in the appropriation of money for the improvement of the city, in the enforcement of the laws which would be a very serious matter. The opinion was expressed that a law extending the city limits to include the whole of the District would be a very serious matter, and that it would be a very serious matter to extend the city limits to include the whole of the District.

The Board of Commissioners, however, stated that they would be glad to receive any suggestions which would be of help to them in the matter, and that they believe that the city limits should be extended.

Rear walls are to be torn down and another entrance cut into the shoe department—besides many other alterations for your greater facility. The stocks in those departments affected by the building operations are to be cleared from the track of wreck and ruin that follows this ripping, tearing and dust-raising work. Black dress goods, linings, wash goods, shoes, boys' clothing, waists and wrappers are the departments which will come in contact with the builders—and everything in these lines has been sharply reduced to make a quick clearance. Progress is pitiless—for it counts no loss or sacrifice too great. We have gone through these lines—and beginning tomorrow morning inaugurate a reduction sale that presages the most spirited selling. Opportunities for saving are offered to which every shrewd shopper will give prompt attention.

Bail and William Jenkins, housebreaking, another case; plea, Ball, guilty, and Jenkins, not guilty.

Business Brisk in Fishtown.

Business was brisk in "Fishtown" this morning, the demand for sea food having increased owing to the beginning of the lenten season. While the cold weather and ice in the river has affected the fish and oyster trade somewhat, there has always been enough oysters in market to supply the demand, although higher prices sometimes prevailed. The lot in the river displayed the fish season, but few fish plentiful just now. Herring are becoming more plentiful each day, and a few shad are also being caught.

The demand for fish is much greater than that from the south, and they therefore bring better prices. Last week's receipts at the wharf included 1,400 herring, one shad, 2,800 bunches of miscellaneous stock and 6,500 bushels of oysters. Among the arrivals reported yesterday were 2,200 bass, 1,200 herring, 1 shad, 42 carp and 1,100 bushels of oysters.

THE KAISER WAS DISPLEASED.

His Play, the "Iron Tooth," Hissed by Berlin Critics.

A dispatch from Berlin last night says: The first presentation tonight of "Der Eisenzahn" ("The Iron Tooth") at the Royal Theater was a notable event, socially and artistically. All the tickets had been sold nine days ago, and the house was packed. On the left side of the court people, the officials and the military dignitaries.

Emperor William appeared during the second act, and sat almost unobserved and quite alone in the royal orchestra box, screened by the drapery from observation.

After the first act there was complete silence. After the second and third there was rather vigorous applause, but from the parquet, where the critics and literary people sat, and from the second and third galleries, there came a piercing storm of hisses.

The emperor, whose collaboration with Capt. Lauff in the play is well known, was highly displeased. Capt. Lauff took a cue of it with his majesty after the third act, having twice answered calls from the boxes and elsewhere, and having come before the curtain as pale as a ghost. Then he, with the emperor, left the theater, which caused a sensation.

The public verdict of the play is that it is verbose, although containing fine dramatic passages, and too palpably glorifies the Hohenzollern hero, who put down the Berlin rebellion in 1447.

The acting was excellent throughout, and especially that of Herr Matkowsky, as Frederick of Hohenzollern, and of Fraulien Poppe.

DUAL GOVERNMENT IN KENTUCKY.

Bankers Refuse to Honor Drafts of Elected Governor.

A dispatch from Frankfort, Ky., says: Two state governments, completely offered, and each claiming to be the regular and legal officials, were in Frankfort yesterday, and will remain, each claiming the right to administer the affairs of state until the question is adjudicated in the courts.

Neither the bankers refuse to recognize either of the contending factions, and as a result both are without money, and the state funds are as securely tied up as they could be. Legislators, county, as well as state, officials, and all kinds of contractors with the state will have to wait until somebody is authorized by a decision of the courts to pay them, and the state will have to wait on what is due it until the courts say who is authorized to receive it.

The democratic state officers have opened offices in the State Hotel. The charitable and penal state institutions are among the sufferers.

Railway Sued for Damages.

Hannah E. Paxton and Thomas Paxton, her husband, today, through Attorney Alvin Hart, instituted proceedings at law against the Georgetown and Taneytown Railway Company, to secure damages for the sum of \$10,000. It is alleged that the 11th of last month, as the result of a collision of two cars of the defendant, Mrs. Paxton, who was traveling in a passenger car, sustained serious injury.

Seven Questions For Married Women Only.

- 1.—Do you think women are fonder of music than men?
- 2.—Do you think women are more susceptible to the influence of music than men?
- 3.—Do you think that good music, when properly cultivated, in a home has a tendency to raise its moral atmosphere?
- 4.—Have you kept up your practice since your marriage and can you entertain your husband and sons with some music upon their return home from a day of hard work?
- 5.—Are not the majority of men too tired to go out to concerts or theaters after their day's toil? What do you do on such evenings?
- 6.—If, on the other hand, they go out frequently and you are left alone, do you think they would remain if they could enjoy a little concert of their own at home?
- 7.—Do you know that an instrument exists, by the use of which you can play thousands of compositions, embracing classic, popular, operatic and "rag time" selections, and that you don't need an hour's practice to play perfectly? It is called the "ANGELUS," and a very small outlay of money will place one in your home or trial.

If you are at all interested, and the benefits which you and your family will derive from the use of such an instrument (not only as a diversion, but educationally considered) appeal to you, write for a pamphlet or call in person and see the instrument in daily operation at
